Natural history of dragons 04:
Voyage of the basilisk

Catherine Asaro
Even those who take no interest in the field of dragon naturalists have heard of the glamorous Lady Tryst's expedition to the inexplicable depths of Alkia. Her discoveries are those of a romantic, not a scholar's: the truth is far from clear. In this, the fourth volume of her memoirs, Lady Tryst relays how she accepted her position with the royal Scrying Society, how foreign schools imported her work in her early days, and how her determination placed her at the top of her craft. The report she wrote is the deepest reach of the Labyrinth of Alkia, where the chance action of a dragon may cause a great advancement in knowledge. Lady Tryst's various memoirs are:

A Natural History of Dragons, The Tome of Jerys, and Voyage of the Basilisk
